## Clarvista™ Glass

Your bath should be a sanctuary of luxury and beauty. **Make the beauty last** — with the timeless clarity of *Clarvista™* Glass.

*Clarvista™* Glass provides a lifetime protective coating that keeps your new shower enclosure looking sparkling clear by preventing the dullness that can come from heat and humidity over time. With *Clarvista™* Glass, the look you love now will remain beautiful for years to come.

### Where to buy

You can get *Clarvista™* Glass through approved *Vitro Certified™* Fabricators throughout the United States and Canada. To find a fabricator near you, visit [clarvistaglass.com](http://clarvistaglass.com).

## Design with *Clarvista™* Glass for timeless beauty.

*Clarvista™* Glass is the perfect choice for today's seamless shower designs. Why? Because *Clarvista™* Glass protects the clarity right from the beginning and keeps it clear for the lifetime of your shower glass. And it's as functional as it is beautiful. With the durable *Clarvista™* Glass coating, you get a super-smooth, protective seal that helps your shower glass stay cleaner longer and makes it easier to clean when you need to.

**Achieve the exact look you want for your bath with one of these distinct glass types:**

### **CLARVISTA™ GLASS COATING ON CLEAR GLASS BY VITRO**

*Clarvista™* Glass lets the beauty of standard clear glass by Vitro shine through.

### **CLARVISTA™ GLASS COATING ON STARPHIRE ULTRA-CLEAR™ GLASS BY VITRO**

The *Clarvista™* Glass protective coating is as transparent as the glass itself, which makes it ideal for preserving the clarity and brilliance of *Starphire Ultra-Clear™* Glass by Vitro.

### **CLARVISTA™ GLASS COATING ON ACID-ETCHED GLASS**

*Clarvista™* Glass coating also can be combined with Walker Textures' acid-etched glass to provide privacy through a translucent satin finish.

## **Why *Clarvista™* Glass?**

If left unprotected, even the highest-quality glass can become dull and hazy after years of heat and humidity in a shower enclosure. Protect your investment by using *Clarvista™* Glass to provide supreme clarity and lasting durability.

Unlike sprayed-on coatings, the *Clarvista™* Glass coating is fused to the glass during manufacturing, sealing the glass surface to provide a lifetime protective barrier. So with regular maintenance, shower enclosures built with *Clarvista™* Glass will maintain their beauty and clarity for many years to come.

## **Lab tests prove *Clarvista™* Glass stays cleaner longer**

We put *Clarvista™* Glass up against uncoated clear glass as well as the leading shower enclosure glass in a "jungle box" torture test that simulates years of exposure to heat and humidity.

After only 175 hours in this test, uncoated clear glass started to show signs of haze and was significantly stained at the end. Even the leading shower glass showed considerable corrosion.

### **But not *Clarvista™* Glass.**

***Clarvista™* Glass**

**Leading Glass**

**Uncoated Glass**

In fact, even after rigorous scratch- and chemical-resistance tests, followed by 1,000 hours of exposure to heat and humidity, the clear beauty of *Clarvista™* Glass just keeps shining through.

***Choose Clarvista™ Glass to ensure that your shower glass looks as beautiful years from now as it does today.***
